- Quick learner

PROFILE

Junior Software Developer with a foundation in full-stack development using the MERN stack. Experienced in building responsive UIs, backend APIs, and database-driven apps. Brings analytical thinking and attention to detail from a finance background, with growing interest in data systems and cybersecurity.

PROJECTS

HugPaw E-commerce

A Full-Stack E-Commerce Web Application
- *Developed a single-page e-commerce app using the MERN stack and Vite*
- *Implemented key features including product catalog, shopping cart, user authentication, admin dashboard, and payment mockup*
- *Collaborated in an Agile team using GitHub for version control, issue tracking, and code reviews*

DevLink

A Developer-Centric Portfolio Platform
- *Built a full-stack web application using the MERN stack to showcase developer profiles, skills, and projects*
- *Applied CRUD operations, RESTful API integration, and state management for dynamic content handling*
- *Demonstrated solo project ownership through UI design, feature implementation, and deployment readiness*

TRAINING

JUN 2025 - SEP 2025 │ Junior Software Developer Bootcamp

Generation Thailand

- Developed full-stack web development skills using the MERN stack through hands-on, project-based learning
- Gained practical experience with frontend, backend, database integration, Git workflows, and Agile collaboration

EXPERIENCE

JUL 2022 - APR 2025 │ Associate Derivatives Trader

RHB Securities (Thailand) PCL

- Collaborated with cross-functional teams to manage high-stakes decisions and ensure accurate, real-time data handling
- Applied analytical thinking and precision under pressure to interpret complex information and maintain system integrity

EDUCATION

2025 — M.S., Financial Engineering, UTCC

2019 — B.Econ., Economics, Kasetsart University
